VOLUME 58—SUBJECT INDEX

Note: For brain nuclei see relevant area, e.g. Hypothalamus, or under name of nucleus (e.g. Accumbens nucleus).

*Commentary
§Letter

Abbreviations used:

ACh	Acetylcholine
ATP	Adenosine 5'-triphosphate,
BDNF	Brain-derived neurotrophic factor
Ca^{2+}	Calcium ion
CGRP	Calcitonin gene-related peptide
ChAT	Choline acetyltransferase
d.c.	Direct current
DRG	Dorsal root ganglion
EPSP	Excitatory postsynaptic potential
GABA	Gamma-aminobutyric acid
GAP-43	Growth associated protein 43
GFAP	Glial fibrillary acidic protein
5-HT	5-Hydroxytryptamine
IEG	Immediate early gene
LTP	Long term potentiation
mRNA	Messenger ribose nucleic acid
NMDA	N-methyl-D-aspartate
NT3	Neurotrophin 3
5OHDA	5-Hydroxydopamine
PHI	Peptide histidine isoleucine
PK	Protein kinase
SON	Supraoptic nucleus
SP	Substance P
STP	Short term potentiation
TGF	Transforming growth factor
TH	Tyrosine hydroxylase
TNTX	Tetanus toxin
TTX	Tetrodotoxin
UV	Ultraviolet

Abducens internuclear neurons,
  effect of target (oculomotor nucleus medial rectal neurons) destruction on long term survival and morphology in adult cat 58:59
  long term physiological effects of target destruction in cat 58:81

Accumbens nucleus,
  differential localization of basolateral amygdaloid nucleus neurons projecting to the prefrontal cortex and nucleus accumbens in rat 58:389

Acetylcholine,
  role of L-type Ca^{2+} channels in spontaneous release of ACh from motor neurons in developing Xenopus neuromuscular junctions 58:131

Adenosine,
  effects on intracellular Ca^{2+} in different sub-populations of rat DRG sensory neurons in vitro 58:141
  evidence for role of adenosine A_1 receptors in the modulation of glutamate release in goldfish cerebellar slices 58:237
  role in anticonvulsant mechanisms in status epilepticus in rat 58:245

Adenosine 5'-triphosphate,
  effects on intracellular Ca^{2+} in different sub-populations of rat DRG sensory neurons in vitro 58:141

Adenosine receptors,
  evidence for role of A_1 receptors in the modulation of glutamate release in goldfish cerebellar slices 58:237
  inhibition of EPSPs by binding of the diadenosine phosphates Ap_4A and Ap_5A to A_1 receptors in rat hippocampus 58:235§

Afferent nerves,
  role of afferent and target control of neuronal survival during development in vertebrates 58:671*

Aging,
effects of aging and lack of oestrogen on ultrastructural morphology of gonadotropin-releasing hormone neurons in female rats 58:217

Alcohol,
effect of mesencephalic dopaminergic grafts into the striatum on voluntary alcohol intake in rat 58:359

Amphetamines,
role of pedunculopontine tegmental nucleus in amphetamine and apomorphine-induced locomotion and orofacial stereotypy in rat 58:817

Amygdala,
differential localization of basolateral amygdaloid nucleus neurons projecting to the prefrontal cortex and nucleus accumbens in rat 58:389

Angiotensin II,
role of angiotensinergic and dopaminergic mechanisms in apomorphine-induced oral stereotypy in rat: effect of the angiotensin converting enzyme inhibitors captopril and enalapril, and haloperidol 58:799

Angiotensin converting enzyme,
role of angiotensinergic and dopaminergic mechanisms in apomorphine-induced oral stereotypy in rat: effect of the angiotensin converting enzyme inhibitors captopril and enalapril, and haloperidol 58:799

Angiotensin receptors,
selective effect of eye enucleation on angiotensin AT_1 and AT_2 receptor subtype binding in rat 58:835

Antipsychotic drugs,
effect of antipsychotic drugs, risperidone & clozepine, on 5-HT_2 receptor-mediated excitation of GABAergic piriform cortex interneurons in rat brain slices 58:515

Apolipoprotein E,
effect of TGF-ß1 on mRNA expression following hippocampal deafferentation in rat 58:563

Apoptosis,
role of afferent and target control of neuronal survival during development in vertebrates 58:671*

Arachidonic acid,
excitatory effects of arachidonate and its metabolites in CA1 hippocampal neurons in vitro 58:493

Area postrema,
characterization of efferent projections from the area postrema to vagal motor neurons and medullary catecholamine-containing cell groups in rat 58:635

Arthritis,
increase in c-Fos expression in hindbrain in response to somatic pain induced by inflammation of foot in freely moving rats 58:287

Aspartate,
evidence for neurotransmitter role for glutamate and aspartate in the rat solitary tract nucleus following barorecepter activation 58:585

Astrocytes,
cellular responses during regeneration of cholinergic neurons following perforant pathway transection in adult rat hippocampus 58:705

ATP SEE Adenosine 5'-triphosphate

Baclofen,
effect on NMDA-induced firing pattern in ventral tegmentum and substantia nigra dopaminergic neurons in rat brain slices 58:201

Barium,
effect on NMDA-induced firing pattern in ventral tegmentum and substantia nigra dopaminergic neurons in rat brain slices 58:201

Baroreceptors,
evidence for neurotransmitter role for glutamate and aspartate in the rat solitary tract nucleus following barorecepter activation 58:585

Basal Ganglia SEE ALSO specific areas

Behaviour,
differential roles of the motor cortex and the caudate nucleus in tongue-forepaw synchronisation in rat 58:193
immunolocalization of Fos in rat spinal cord and caudal brainstem following walking, a non-noxious input, and effect of unilateral sensory deafferentation 58:275
increase in hindbrain c-Fos expression in response to somatic pain induced by inflammation of foot in freely moving rats 58:287
review: olfactory learning and memory in rats 58:1*
role of angiotensinergic and dopaminergic mechanisms in apomorphine-induced oral stereotypy in rat: effect of the angiotensin converting enzyme inhibitors captopril and enalapril, and haloperidol 58:799
role of pedunculopontine tegmental nucleus in amphetamine and apomorphine-induced locomotion and orofacial stereotypy in rat 58:817

Benzodiazapines,
effects of bilateral olfactory bulbectomy in rat on central and peripheral benzodiazepine receptors 58:527

Blood brain barrier,
cellular responses during regeneration of cholinergic neurons following perforant pathway transection in adult rat hippocampus 58:705

Blood flow,
effect of NMDA injection into the lateral periaqueductal grey on local metabolic rate and systemic and regional blood flow in rat 58:785
effect of NMDA injection into the lateral periaqueductal grey on systemic and regional blood flow in rat 58:777

Bradykinin,
effects on intracellular Ca^{2+} in different sub-populations of rat DRG sensory neurons in vitro 58:141

Brain,
effects of bilateral olfactory bulbectomy in rat on central and peripheral benzodiazepine receptors 58:527
localization of 5-HT_{1B} receptor mRNA and $5HT_{1B}$

binding sites in mouse 58:167
localization of perineuronal nets with colloidal iron hydroxide and lectins in rat 58:371
quantitative immunolocalization of TH and ChAT in human 58:227

Brainstem,
differential effect of unilateral hindpaw pinch on c-Fos expression in hypothalamic neurosecretory and brainstem catecholaminergic cells in rat 58:765
immunolocalization of Fos in rat spinal cord and caudal brainstem following walking, a non-noxious input, and effect of unilateral sensory deafferentation 58:275

Brain-derived neurotrophic factor,
role in differentiation and survival of embryonic chick retinal cells in vitro 58:347

Calcitonin gene-related peptide,
decrease in sciatic nerve CGRP and SP proteins but not mRNAs in the DRG of diabetic and hypoxaemic rats 58:323

Calcium ions,
decrease in EPSPs by endogenous κ-opioid receptor agonists, dynorphin and leumorphin, via a Ca^{2+}-dependent mechanism in rat hypothalamic SON 58:331
effects of capsaicin, adenosine, bradykinin, ATP and SP on intracellular Ca^{2+} in different sub-populations of rat DRG sensory neurons in vitro 58:141
increase in K^+ and non-selective cation conductance following a depolarization-induced calcium influx in rat dissociated nucleus basalis neurons 58:553

Calcium ion channels,
modulation of low- and high- voltage activated Ca^{2+} channels in the ND7-23 DRG cell line 58:539
role of L-type Ca^{2+} channels in spontaneous release of ACh from motor neurons in developing Xenopus neuromuscular junctions 58:131

Capsaicin,
effects on intracellular Ca^{2+} in different sub-populations of rat DRG sensory neurons in vitro 58:141

Catecholaminergic neurons,
characterization of efferent projections from the area postrema to vagal motor neurons and medullary catecholamine-containing cell groups in rat 58:635
differential effect of unilateral hindpaw pinch on c-Fos expression in hypothalamic neurosecretory and brainstem catecholaminergic cells in rat 58:765
quantitative immunolocalization ChAT in human brain 58:227

Caudate nucleus,
differential roles of the motor cortex and the caudate nucleus in tongue-forepaw synchronisation in rat 58:193

Central nervous system,
effects of bilateral olfactory bulbectomy in rat on central and peripheral benzodiazepine receptors 58:527

Cerebellum,
evidence for role of adenosine A_1 receptors in the modulation of glutamate release in goldfish cerebellar slices 58:237

Cerebral cortex,
effect of antipsychotic drugs, risperidone & clozepine, on 5-HT_2 receptor-mediated excitation of GABAergic piriform cortex interneurons in rat brain slices 58:515
image analysis mapping of intrinsic and seizure signal patterns in the olfactory cortex of the isolated guinea-pig brain 58:461
modelling of sub-millisecond coincidence detection in active dendrites of a layer V pyramidal cell from cat striate cortex 58:13

Choline acetyl transferase,
quantitative immunolocalization in human brain 58:227

Cholinergic neurons,
cellular responses during regeneration of cholinergic neurons following perforant pathway transection in adult rat hippocampus 58:705
identification of cholinergic projections from the ventral trapezoid nucleus to the cochlear nucleii in rat 58:627
quantitative immunolocalization TH in human brain 58:227

Circadian rhythm,
ultrastructural immunolocalization of 5-HT in embryonic rat suprachiasmatic nucleus during development 58:161
ultrastructural immunolocalization of TH in embryonic rat suprachiasmatic nucleus during development 58:151

Clozepine,
effect on 5-HT_2 receptor-mediated excitation of GABAergic piriform cortex interneurons in rat brain slices 58:515

Clusterin,
effect of TGF-β1 on mRNA expression following hippocampal deafferentation in rat 58:563

Cochlear nucleii,
identification of cholinergic projections from ventral trapezoid nucleus in rat 58:627

Coincidence detection,
modelling of sub-millisecond coincidence detection in active dendrites of a layer V pyramidal cell from cat striate cortex 58:13

Computor model,
modelling of sub-millisecond coincidence detection in active dendrites of a layer V pyramidal cell from cat striate cortex 58:13
unit-to-aggregate coherence computation for the analysis of synchrony in neural systems 58:43

Dentate gyrus,
increase in immunoreactivity of c-fos and ras following denervation of rat dentate gyrus 58:503

Depression,
effects of bilateral olfactory bulbectomy in rat on central and peripheral benzodiazepine receptors 58:527

Diabetes,
decrease in sciatic nerve CGRP and SP proteins but not mRNAs in the DRG of diabetic and hypoxaemic rats 58:323

Diadenosine phosphates,
inhibition of EPSPs by binding of the diadenosine phosphates Ap_4A and Ap_5A to A_1 receptors in rat hippocampus 58:235§

Diurnal rhythms,
light and time dependent expression of fos and fos-like protein in ventrolateral region of rat suprachiasmatic nucleus 58:573

Dopamine,
role of angiotensinergic and dopaminergic mechanisms in apomorphine-induced oral stereotypy in rat: effect of the angiotensin converting enzyme inhibitors captopril and enalapril, and haloperidol 58:799
effect on NMDA-induced firing pattern in ventral tegmentum and substantia nigra dopaminergic neurons in rat brain slices 58:201

Dopamine receptors,
immunolocalization in neurites from locust third thoracic ganglion cells in vitro 58:649

Dopaminergic neurons,
3-D ultrastructure of neurons labelled with 5-OHDA in rat neostriatum 58:593
effect of mesencephalic dopaminergic grafts into the striatum on voluntary alcohol intake in rat 58:359
effect of TTX, baclofen, dopamine and barium on NMDA-induced firing pattern in ventral tegmentum and substantia nigra dopaminergic neurons in rat brain slices 58:201

Dorsal root ganglion,
comparison of somatic ionic currents in sensory neurons of embryonic and new-born rats 58:341
decrease in sciatic nerve CGRP and SP proteins but not mRNAs in the DRG of diabetic and hypoxaemic rats 58:323
effects of capsaicin, adenosine, bradykinin, ATP and SP on intracellular Ca^{2+} in different sub-populations of rat sensory neurons in vitro 58:141
modulation of low- and high- voltage activated Ca^{2+} channels in ND7-23 cells 58:539

Dynorphin,
decrease in EPSPs by endogenous κ-opioid receptor agonists, dynorphin and leumorphin, via a Ca^{2+}-dependent mechanism in rat hypothalamic SON 58:331

Electrical stimulation,
lack of enhancement of regeneration by low intensity d.c. stimulation in cut rat sciatic nerves 58:411

Embryonal carcinoma cells,
immunolocalization of neurotransmitters in mouse P19 embryonal carcinoma cells following induction of differentiation with retinoic acid 58:735
development and survival of retinoic acid-induced differentiated mouse P19 embryonal carcinoma cells following transplantation into adult rat striatum 58:753

Enkephalinergic neurons,
immunolocalization of enkephalinergic and somatostatinergic neurons and somatostatin binding sites in guinea-pig magnocellular dorsal nucleus: role of somatostatin in modulation of enkephalinergic hypothalamoseptal tract 58:207

Epilepsy,
role in anticonvulsant mechanisms in status epilepticus in rat 58:245

Excitatory post-synaptic currents,
modelling of sub-millisecond coincidence detection in active dendrites of a layer V pyramidal cell from cat striate cortex 58:13

Excitatory post-synaptic potentials,
decrease in EPSPs by endogenous κ-opioid receptor agonists, dynorphin and leumorphin, via a Ca^{2+}-dependent mechanism in rat hypothalamic SON 58:331
inhibition of EPSPs by binding of the diadenosine phosphates Ap_4A and Ap_5A to A_1 receptors in rat hippocampus 58:235§

Eye,
selective effect of eye enucleation on angiotensin AT_1 and AT_2 receptor subtype binding in rat 58:835

Forebrain,
developmental expression of PAC 1 in rat forebrain in vivo and in vitro, co-immunolocalization with GAP-43 and association of the PAC 1 epitope with synapse-enriched glycoproteins 58:115

Fos,
differential effect of unilateral hindpaw pinch on c-Fos expression in hypothalamic neurosecretory and brainstem catecholaminergic cells in rat 58:765
effect of noxious peripheral stimulation on expression in rat spinal cord 58:299
immunolocalization in rat spinal cord and caudal brainstem following walking, a non-noxious input, and effect of unilateral sensory deafferentation 58:275
increase in hindbrain c-Fos expression in response to somatic pain induced by inflammation of foot in freely moving rats 58:287
increase in immunoreactivity of c-fos and ras following denervation of rat dentate gyrus 58:503
light and time dependent expression of fos and fos-like protein in ventrolateral region of rat suprachiasmatic nucleus 58:573
modulation of IEG expression in spinal cord induced by noxious hind-paw stimulation by pretreatment with morphine in rat 58:305

GABA SEE Gamma-aminobutyric acid

GABAergic neurons,
effect of antipsychotic drugs, risperidone & clozepine, on 5-HT_2 receptor-mediated excitation of GABAergic piriform cortex interneurons in rat brain slices 58:515

Gamma-aminobutyric acid,
immunolocalization in mouse P19 embryonal carcinoma cells following induction of differentiation with retinoic acid 58:735

Gamma-aminobutyric acid transaminase,
immunolocalization in mouse P19 embryonal carcinoma cells following induction of differentiation with retinoic acid 58:735

Ganglion cells,
neurogenesis, migration and differentiation of ganglion cells in chick retina 58:399

GAP-43,
developmental expression of PAC 1 in rat forebrain in vivo and in vitro, co-immunolocalization with GAP-43 and association of the PAC 1 epitope with synapse-enriched glycoproteins 58:115
effect of TGF-ß1 on mRNA expression following hippocampal deafferentation in rat 58:563

Glial cells,
cellular responses during regeneration of cholinergic neurons following perforant pathway transection in adult rat hippocampus 58:705

Glial fibrillary acidic protein,
effect of TGF-ß1 on mRNA expression following hippocampal deafferentation in rat 58:563

Glutamate,
evidence for glutamatergic synaptic transmission by vestibular sensory neurons at mixed synapses with chick tangential nucleus principal cells during development 58:99
evidence for neurotransmitter role for glutamate and aspartate in the rat solitary tract nucleus following barorecepter activation 58:585
evidence for role of adenosine A_1 receptors in the modulation of glutamate release in goldfish cerebellar slices 58:237
sensitivity to NMDA-induced neurotoxicity in postnatal but not adult motor neurons following sciatic nerve crush in rat 58:727

Glutamate decarboxylase,
immunolocalization in mouse P19 embryonal carcinoma cells following induction of differentiation with retinoic acid 58:735

Gonadotropin-releasing hormone neurons,
effects of aging and lack of oestrogen on ultrastructural morphology in female rats 58:217

Grafts,
development and survival of retinoic acid-induced differentiated mouse P19 embryonal carcinoma cells following transplantation into adult rat striatum 58:753
effect of mesencephalic dopaminergic grafts into the striatum on voluntary alcohol intake in rat 58:359

Gut,
immunolocalziation of c-myc in mammalian enteric nervous system 58:807

Haloperidol,
role of angiotensinergic and dopaminergic mechanisms in apomorphine-induced oral stereotypy in rat: effect of the angiotensin converting enzyme inhibitors captopril and enalapril, and haloperidol 58:799

Hepoxilins,
excitatory effects of arachidonate and its metabolites in CA1 hippocampal neurons in vitro 58:493

Hindbrain,
increase in c-Fos expression in response to somatic pain induced by inflammation of foot in freely moving rats 58:287

Hippocampus,
cellular responses during regeneration of cholinergic neurons following perforant pathway transection in adult rat 58:705
effect of TGF-ß1 on tubulin α1, GFAP, clusterin, apolipoprotein E and GAP-43 mRNA expression following hippocampal deafferentation in rat 58:563
excitatory effects of arachidonate and its metabolites in CA1 hippocampal neurons in vitro 58:493
expression of synpasin 1 mRNA and protein in rat dentate gyrus granule cells during synaptogenesis in development and regeneration 58:683
impairment of both STP and LTP by the PK inhibitor staurosporine in guinea-pig hippocampal slices 58:263
inhibition of EPSPs by binding of the diadenosine phosphates Ap_4A and Ap_5A to A_1 receptors in rat 58:235§
interhemispheric transfer of spatial information in rats with unilateral lidocaine-induced dysfunction of visual cortex and dorsal hippocampus 58:481

Homeostasis,
characterization of efferent projections from the area postrema to vagal motor neurons and medullary catecholamine-containing cell groups in rat 58:635

5-Hydroxydopamine,
3-D ultrastructure of dopaminergic neurons labelled with 5-OHDA in rat neostriatum 58:593

5-Hydroxyindolacetic acid,
extracellular levels in awake rat hypothalamus and during desynchronised and slow wave sleep 58:353

5-Hydroxytryptamine,
localization of 5-HT_{1B} receptor mRNA and $5HT_{1B}$ binding sites in mouse brain 58:167
ultrastructural immunolocalization in embryonic rat suprachiasmatic nucleus during development 58:161

5-Hydroxytryptamine receptors,
localization of 5-HT_{1B} receptor mRNA and $5HT_{1B}$ binding sites in mouse brain 58:167

5-Hydroxytryptamine neurons,
extracellular 5-HIAA levels in awake rat hypothalamus and during desynchronised and slow wave sleep 58:353

Hypertension,
role of angiotensinergic and dopaminergic mechanisms in apomorphine-induced oral stereotypy in rat: effect of the angiotensin converting enzyme inhibitors captopril and enalapril, and haloperidol 58:799

Hypothalamus,
decrease in EPSPs by endogenous κ-opioid receptor agonists, dynorphin and leumorphin, via a Ca^{2+}-dependent mechanism in rat 58:331
differential effect of unilateral hindpaw pinch on c-Fos expression in hypothalamic neurosecretory and brainstem catecholaminergic cells in rat 58:765
extracellular 5-HIAA levels in awake rats and during desynchronised and slow wave sleep 58:353
immunolocalization of enkephalinergic and somatostatinergic neurons and somatostatin binding sites in guinea-pig magnocellular dorsal nucleus: role of somatostatin in modulation of enkephalinergic hypothalamoseptal tract 58:207
ultrastructural immunolocalization of 5-HT in embryonic rat suprachiasmatic nucleus during development 58:161

ultrastructural immunolocalization of TH in embryonic rat suprachiasmatic nucleus during development 58:151

Hypoxia,
decrease in sciatic nerve CGRP and SP proteins but not mRNAs in the DRG of diabetic and hypoxaemic rats 58:323

Immediate early genes,
increase in c-Fos expression in hindbrain in response to somatic pain induced by inflammation of foot in freely moving rats 58:287
increase in immunoreactivity of c-fos and ras following denervation of rat dentate gyrus 58:503
modulation of IEG expression in spinal cord induced by noxious hind-paw stimulation by pretreatment with morphine in rat 58:305

Inflammation,
increase in c-Fos expression in hindbrain in response to somatic pain induced by inflammation of foot in freely moving rats 58:287

Ion channels,
comparison of somatic ionic currents in DRG sensory neurons of embryonic and new-born rats 58:341
control of after transduction by photoreceptor inner segment ion channels in vertebrates 58:447*

Jun,
modulation of IEG expression in spinal cord induced by noxious hind-paw stimulation by pretreatment with morphine in rat 58:305

Krox-24,
modulation of IEG expression in spinal cord induced by noxious hind-paw stimulation by pretreatment with morphine in rat 58:305

Learning,
interhemispheric transfer of spatial information in rats with unilateral lidocaine-induced dysfunction of visual cortex and dorsal hippocampus 58:481

Leumorphine,
decrease in EPSPs by endogenous κ-opioid receptor agonists, dynorphin and leumorphin, via a Ca^{2+}-dependent mechanism in rat hypothalamic SON 58:331

Light,
light and time dependent expression of fos and fos-like protein in ventrolateral region of rat suprachiasmatic nucleus 58:573

Locomotion,
role of pedunculopontine tegmental nucleus in amphetamine and apomorphine-induced behaviour in rat 58:817

Long-term potentiation,
impairment of both STP and LTP by the PK inhibitor staurosporine in guinea-pig hippocampal slices 58:263

Macrophages,
cellular responses during regeneration of cholinergic neurons following perforant pathway transection in adult rat hippocampus 58:705

Magnocellular dorsal nucleus,
immunolocalization of enkephalinergic and somatostatinergic neurons and somatostatin binding sites in guinea-pig: role of somatostatin in modulation of enkephalinergic hypothalamoseptal tract 58:207

Medulla oblongata,
characterization of efferent projections from the area postrema to vagal motor neurons and medullary catecholamine-containing cell groups in rat 58:635
evidence for neurotransmitter role for glutamate and aspartate in the rat solitary tract nucleus following barorecepter activation 58:585

Memory,
review: olfactory learning and memory in rats 58:1*

Mesencephalon,
effect of mesencephalic dopaminergic grafts into the striatum on voluntary alcohol intake in rat 58:359

N-methyl-D-aspartate,
effect of injection into the lateral periaqueductal grey on local metabolic rate and systemic and regional blood flow in rat 58:785
effect of injection into the lateral periaqueductal grey on systemic and regional blood flow in rat 58:777
effect of TTX, baclofen, dopamine and barium on NMDA-induced firing pattern in ventral tegmentum and substantia nigra dopaminergic neurons in rat brain slices 58:201

Modelling SEE Computor model

Morphine,
modulation of IEG expression in spinal cord induced by noxious hind-paw stimulation by pretreatment with morphine in rat 58:305

Motor cortex,
differential roles of the motor cortex and the caudate nucleus in tongue-forepaw synchronisation in rat 58:193

Motor neurons,
effect of target (oculomotor nucelus medial rectal neurons) destruction on long term survival and morphology of abducens internuclear neurons in adult cat 58:59
role of L-type Ca^{2+} channels in spontaneous release of ACh from motor neurons in developing Xenopus neuromuscular junctions 58:131
sensitivity to NMDA-induced neurotoxicity in postnatal but not adult motor neurons following sciatic nerve crush in rat 58:727

c-Myc,
immunolocalziation in mammalian enteric nervous system 58:807

Neocortex SEE Cerebral cortex

Neostriatum SEE ALSO specific areas

Neostriatum,
3-D ultrastructure of dopaminergic neurons labelled with 5-OHDA in rat 58:593
development and survival of retinoic acid-induced differentiated mouse P19 embryonal carcinoma cells following transplantation into adult rat striatum 58:753

effect of mesencephalic dopaminergic grafts on voluntary alcohol intake in rat 58:359
evidence for lack of correspondence between islands and striosomes in adjacent sections of monkey striatum 58:183

Neurohypophysis,
characterization of the functional domain in TNTX involved in the inhibition of vasopressin release in rat 58:423

Neuromuscular junction,
role of L-type Ca^{2+} channels in spontaneous release of ACh from motor neurons in developing Xenopus neuromuscular junctions 58:131

Neuronal survival,
effect of target (oculomotor nucelus medial rectal neurons) destruction on long term survival and morphology of abducens internuclear neurons in adult cat 58:59
long term physiological effects of target (medial rectal neurons) destruction in cat abducens internuclear neurons 58:81
sensitivity to NMDA-induced neurotoxicity in postnatal but not adult motor neurons following sciatic nerve crush in rat 58:727

Neuronal death,
role of afferent and target control of neuronal survival during development in vertebrates 58:671*
sensitivity to NMDA-induced neurotoxicity in postnatal but not adult motor neurons following sciatic nerve crush in rat 58:727

Neurosecretory cells,
differential effect of unilateral hindpaw pinch on c-Fos expression in hypothalamic neurosecretory and brainstem catecholaminergic cells in rat 58:765

Neurotransmitters,
immunolocalization of neurotransmitters in mouse P19 embryonal carcinoma cells following induction of differentiation with retinoic acid 58:735

Neurotrophin-3
role in differentiation and survival of embryonic chick retinal cells in vitro 58:347

Nociception,
differential effect of unilateral hindpaw pinch on c-Fos expression in hypothalamic neurosecretory and brainstem catecholaminergic cells in rat 58:765
effect of noxious peripheral stimulation on c-Fos expression in rat spinal cord 58:299
increase in c-Fos expression in hindbrain in response to somatic pain induced by inflammation of foot in freely moving rats 58:287
modulation of IEG expression in spinal cord induced by noxious hind-paw stimulation by pretreatment with morphine in rat 58:305
role of μ and kappa receptors in the opioid mediated suppression of spontaneous activity of polymodal nociceptors induced by UV irradiation in rat paw skin 58:793

Nucleus basalis of Meynert,
increase in K^+ and non-selective cation conductance following a depolarization-induced calcium influx in rat dissociated nucleus basalis neurons 58:553

Oculomotor nucleus,
effect of target (medial rectal neurons) destruction on long term survival and morphology of abducens internuclear neurons in adult cat 58:59
long term physiological effects of target (medial rectal neurons) destruction in cat abducens internuclear neurons 58:81

Oestrogen,
effects of aging and lack of oestrogen on ultrastructural morphology of gonadotropin-releasing hormone neurons in female rats 58:217

Olfactory bulb,
effects of bilateral bulbectomy in rat on central and peripheral benzodiazepine receptors 58:527

Olfactory cortex,
image analysis mapping of intrinsic and seizure signal patterns in the olfactory cortex of the isolated guinea-pig brain 58:461

Olfactory learning,
review: olfactory learning and memory in rats 58:1*

Opioids,
role of angiotensinergic and dopaminergic mechanisms in apomorphine-induced oral stereotypy in rat: effect of the angiotensin converting enzyme inhibitors captopril and enalapril, and haloperidol 58:799
role of μ and kappa receptors in the opioid mediated suppression of spontaneous activity of polymodal nociceptors induced by UV irradiation in rat paw skin 58:793
role of pedunculopontine tegmental nucleus in apomorphine-induced locomotion and orofacial stereotypy in rat 58:817

Opioid receptors,
decrease in EPSPs by endogenous κ-opioid receptor agonists, dynorphin and leumorphin, via a Ca^{2+}-dependent mechanism in rat hypothalamic SON 58:331
role of μ and kappa receptors in the opioid mediated suppression of spontaneous activity of polymodal nociceptors induced by UV irradiation in rat paw skin 58:793

Orofacial stereotypy,
role of angiotensinergic and dopaminergic mechanisms in apomorphine-induced oral stereotypy in rat: effect of the angiotensin converting enzyme inhibitors captopril and enalapril, and haloperidol 58:799
role of pedunculopontine tegmental nucleus in amphetamine and apomorphine-induced behaviour in rat 58:817

Oxygen consumption,
effect of NMDA injection into the lateral periaqueductal grey on local metabolic rate and systemic and regional blood flow in rat 58:785

PAC 1,
developmental expression in rat forebrain in vivo and in vitro, co-immunolocalization with GAP-43 and association of the PAC 1 epitope with synapse-enriched glycoproteins 58:115

Pain,
effect of noxious peripheral stimulation on c-Fos expression in rat spinal cord 58:299
increase in c-Fos expression in hindbrain in response

to somatic pain induced by inflammation of foot in freely moving rats 58:287
role of μ and kappa receptors in the opioid mediated suppression of spontaneous activity of polymodal nociceptors induced by UV irradiation in rat paw skin 58:793

Pedunculopontine tegmental nucleus,
role in amphetamine and apomorphine-induced locomotion and orofacial stereotypy in rat 58:817

Peptide histidine isoleucine,
expression of VIP and PHI mRNAs in adult and developing rat eye 58:657

Periaqueductal grey,
effect of NMDA injection into the lateral periaqueductal grey on local metabolic rate and systemic and regional blood flow in rat 58:785
effect of NMDA injection into the lateral periaqueductal grey on systemic and regional blood flow in rat 58:777

Perineuronal nets,
localization with colloidal iron hydroxide and lectins in rat brain 58:371

Peripheral nervous system,
effects of bilateral olfactory bulbectomy in rat on central and peripheral benzodiazepine receptors 58:527

Photoreceptors,
control of after transduction by photoreceptor inner segment ion channels in vertebrates 58:447*

Pons,
characterization of trigeminal projections to the dorsolateral pons in muskrat 58:605

Potassium ion,
increase in K^+ and non-selective cation conductance following a depolarization-induced calcium influx in rat dissociated nucleus basalis neurons 58:553

Prefrontal cortex,
differential localization of basolateral amygdaloid nucleus neurons projecting to the prefrontal cortex and nucleus accumbens in rat 58:389

Protein kinase,
impairment of both STP and LTP by the PK inhibitor staurosporine in guinea-pig hippocampal slices 58:263

Ras,
increase in immunoreactivity of c-fos and ras following denervation of rat dentate gyrus 58:503

Regeneration,
cellular responses during regeneration of cholinergic neurons following perforant pathway transection in adult rat hippocampus 58:705
effect of TGF-ß1 on tubulin α1, GFAP, clusterin, apolipoprotein E and GAP-43 mRNA expression following hippocampal deafferentation in rat 58:563
increase in immunoreactivity of c-fos and ras following denervation of rat dentate gyrus 58:503
lack of enhancement of regeneration by low intensity d.c. stimulation in cut rat sciatic nerves 58:411
synapsin 1 mRNA and protein expression in rat dentate gyrus granule cells during synaptogenesis in development and regeneration 58:683

Resperidone,
effect on 5-HT_2 receptor-mediated excitation of GABAergic piriform cortex interneurons in rat brain slices 58:515

Retina,
expression of VIP and PHI mRNAs in adult and developing rat eye 58:657
neurogenesis, migration and differentiation of ganglion cells in chick 58:399
role of NT-3 and BDNF on differentiation and survival of embryonic chick retinal cells in vitro 58:347

Retinoic acid,
immunolocalization of neurotransmitters in mouse P19 embryonal carcinoma cells following induction of differentiation with retinoic acid 58:735

Sciatic nerve,
decrease in sciatic nerve CGRP and SP proteins but not mRNAs in the DRG of diabetic and hypoxaemic rats 58:323
lack of enhancement of regeneration by low intensity d.c. stimulation in cut rat sciatic nerves 58:411

Seizures,
image analysis mapping of intrinsic and seizure signal patterns in the olfactory cortex of the isolated guinea-pig brain 58:461

Sensory neurons,
characterization of efferent projections from the area postrema to vagal motor neurons and medullary catecholamine-containing cell groups in rat 58:635
comparison of somatic ionic currents in DRG neurons of embryonic and new-born rats 58:341
effects of capsaicin, adenosine, bradykinin, ATP and SP on intracellular Ca^{2+} in different sub-populations of rat DRG sensory neurons in vitro 58:141
immunolocalization of Fos in rat spinal cord and caudal brainstem following walking, a non-noxious input, and effect of unilateral sensory deafferentation 58:275

Septum,
immunolocalization of enkephalinergic and somatostatinergic neurons and somatostatin binding sites in guinea-pig magnocellular dorsal nucleus: role of somatostatin in modulation of enkephalinergic hypothalamoseptal tract 58:207

Serotonin SEE 5-Hydroxytryptamine

Short-term potentiation,
impairment of both STP and LTP by the PK inhibitor staurosporine in guinea-pig hippocampal slices 58:263

Sleep,
extracellular 5-HIAA levels in awake rat hypothalamus and during desynchronised and slow wave sleep 58:353

Solitary tract nucleus,
evidence for neurotransmitter role for glutamate and

aspartate in rat following barorecepter activation 58:585

Somatostatinergic neurons,
immunolocalization of enkephalinergic and somatostatinergic neurons and somatostatin binding sites in guinea-pig magnocellular dorsal nucleus: role of somatostatin in modulation of enkephalinergic hypothalamoseptal tract 58:207

Spinal cord,
effect of noxious peripheral stimulation on c-Fos expression in rat 58:299
immunolocalization of Fos in rat spinal cord and caudal brainstem following walking, a non-noxious input, and effect of unilateral sensory deafferentation 58:275
modulation of IEG expression in spinal cord induced by noxious hind-paw stimulation by pretreatment with morphine in rat 58:305
sensitivity to NMDA-induced neurotoxicity in postnatal but not adult motor neurons following sciatic nerve crush in rat 58:727

Staurosporine,
impairment of both STP and LTP by the PK inhibitor staurosporine in guinea-pig hippocampal slices 58:263

Striatum SEE Neostriatum

Striosomes,
evidence for lack of correspondence between islands and striosomes in adjacent sections of monkey striatum 58:183

Substance P,
decrease in sciatic nerve CGRP and SP proteins but not mRNAs in the DRG of diabetic and hypoxaemic rats 58:323

Substantia nigra,
effect of TTX, baclofen, dopamine and barium on NMDA-induced firing pattern in dopaminergic neurons in rat brain slices 58:201

Superior colliculus,
selective effect of eye enucleation on angiotensin AT_1 and AT_2 receptor subtype binding in rat 58:835

Suprachiasmatic nucleus,
light and time dependent expression of fos and fos-like protein in ventrolateral region in rat 58:573
ultrastructural immunolocalization of 5-HT in embryonic rat during development 58:161
ultrastructural immunolocalization of TH in embryonic rat during development 58:151

Supraoptic nucleus,
decrease in EPSPs by endogenous κ-opioid receptor agonists, dynorphin and leumorphin, via a Ca^{2+}-dependent mechanism in rat 58:331

Synapses,
developmental expression of PAC 1 in rat forebrain in vivo and in vitro, co-immunolocalization with GAP-43 and association of the PAC 1 epitope with synapse-enriched glycoproteins 58:115
role of L-type Ca^{2+} channels in spontaneous release of ACh from motor neurons in developing Xenopus neuromuscular junctions 58:131
synapsin 1 mRNA and protein expression in rat dentate gyrus granule cells during synaptogenesis in development and regeneration 58:683
ultrastructural size principal: relationship between synaptic efficacy and bouton size in vertebrates 58:441*

Synapsin 1
mRNA and protein expression in rat dentate gyrus granule cells during synaptogenesis in development and regeneration 58:683

Synchrony,
differential roles of the motor cortex and the caudate nucleus in tongue-forepaw synchronisation in rat 58:193
unit-to-aggregate coherence computation for the analysis of synchrony in neural systems 58:43

Tangential nucleus,
evidence for glutamatergic synaptic transmission by vestibular sensory neurons at mixed synapses with chick tangential nucleus principal cells during development 58:99

Tetanus toxin,
characterization of the functional domain involved in the inhibition of vasopressin release in rat neurohypophysis 58:423

Tetrodotoxin,
effect on NMDA-induced firing pattern in ventral tegmentum and substantia nigra dopaminergic neurons in rat brain slices 58:201

Thoracic ganglia,
immunolocalization of dopamine receptors in neurites from locust third thoracic ganglion cells in vitro 58:649

Transforming Growth Factor-ß1,
effect on tubulin α1, GFAP, clusterin, apolipoprotein E and GAP-43 mRNA expression following hippocampal deafferentation in rat 58:563

Trapezoid nucleii,
identification of cholinergic projections from the ventral trapezoid nucleus to the cochlear nucleii in rat 58:627

Trigeminal nucleus,
characterization of trigeminal projections to the dorsolateral pons in muskrat 58:605

Tubulin,
alpha,
effect of TGF-ß1 mRNA expression following hippocampal deafferentation in rat 58:563
beta,
expression of neuron-specific isoform in chick retinal ganglion cells during development 58:399

Tyrosine hydroxylase,
quantitative immunolocalization in human brain 58:227
ultrastructural immunolocalization in embryonic rat suprachiasmatic nucleus during development 58:151

Ultraviolet irradiation,
role of μ and kappa receptors in the opioid mediated suppression of spontaneous activity of polymodal nociceptors induced by UV irradiation in rat paw skin 58:793

Vagus,
characterization of efferent projections from the area postrema to vagal motor neurons and medullary catecholamine-containing cell groups in rat 58:635

Vasoactive intestinal peptide,
expression of VIP and PHI mRNAs in adult and developing rat eye 58:657

Vasopressin,
characterization of the functional domain in TNTX involved in the inhibition of vasopressin release in rat neurohypophysis 58:423

Ventral tegmentum,
effect of TTX, baclofen, dopamine and barium on NMDA-induced firing pattern in dopaminergic neurons in rat brain slices 58:201

Vestibular sensory neurons,
evidence for glutamatergic synaptic transmission in mixed synapses with chick tangential nucleus principal cells during development 58:99

Visual system,
control of after transduction by photoreceptor inner segment ion channels in vertebrates 58:447*
interhemispheric transfer of spatial information in rats with unilateral lidocaine-induced dysfunction of visual cortex and dorsal hippocampus 58:481

Walking,
immunolocalization of Fos in rat spinal cord and caudal brainstem following walking, a non-noxious input, and effect of unilateral sensory deafferentation 58:275
